

Abstract of the Article
"Social Infrastructure of Region: Specialties
of Functioning and Adjustment"
by S. Plotnytska

The providing of comprehensive development of infrastructural processes is a determining modern development tendency, so as without them neither economy nor social growing of country is impossible. In the system of infrastructures an important place belongs to the social infrastructure: the common state of the economy of the country depends on the degree of its development and adequacy. The tendency spreads to the introduction of territorial (regional) aspect in the management of the social infrastructure development of late few years. Most objects of social infrastructure have been passed on balance of the local authorities. In Ukraine the state at the different levels takes measures concerning the stabilization and improvement of position in the social infrastructure. However, the estimation of realization results of priority national projects is vague for today.

Thereby raises the question of choice of necessary criteria for the state adjusting of social infrastructure, the determination of industries which need the state adjusting and the degree of this adjusting in the present social and economic conditions. In addition current researchers don't have a common view of determination of both the essence and the classification of social infrastructure.

In terms of formulated tasks, in the article it was made the attempt to define the essence of social infrastructure in providing conditions not only for the vital functions of individual but the society as a whole and also as a key indicator of the modern technological system.

On the basis of the conducted analysis of the facts which influence on the functioning of region social infrastructure, there were selected the spheres of social infrastructure, where the state adjusting is necessary.

There was selected a number of restrictions which are typical for the branches of social infrastructure and does not allow to function the business enterprises in this sphere.
