

Abstract of the Article
"Concept, Types and Directions of the Fight
against Illegal Acquisition of Companies"
by N. Poyda-Nosyk and H. Yemets

Relevance of the article is caused by the fact that in recent years the stock market of Ukraine collides with the phenomenon associated with the illegal acquisition of enterprises that national scientists and experts call in general using the term "raid".

The nature, causes and background of raider grabs are described.

The features of raiding in Ukraine are considered.

The main factors that contribute to the development of raiding in Ukraine are defined.

The main attention is focused on current problems and the state's role in the fight against corporate raids. In particular, the article highlights the role and competence of the State Commission on Securities and Stock Market in resolving the problems of counteraction to the illegal acquisitions and takeovers.

Ways to improve the legal framework to counter the illegal takeover of businesses in Ukraine are suggested.
